## Education

---

- **Computer Engineering** | Cairo University

## Projects

---

- Smart blind stick, which provides many features to make blind people's lives much easier. We used Arduino Uno and sensors for sound and distance.
- OOP project for kids to draw and paint. It also comes with a game with their drawings.
- Process scheduler using C++. Process scheduling involves allocating resources to different processes so that they can be completed in an efficient and timely manner.
- Calculator using different logic gates. It can add, subtract, or multiply two numbers.

## Skills

---

- Programming and problem solving (C++)
- Planning
- Analysis
- Flexibility
- Leadership
